September 2018

Dear Nick,

The Regional Monitoring Program for Water Quality in San Francisco Bay (the RMP) is sponsoring a Data Visualization Challenge. Millions of measurements have been made

of water quality in the Bay. These data reside in a publicly accessible database (cd3.sfei.org). We have learned a lot from these data but not all of the data have been analyzed. The purpose of this contest is to promote new visualizations of the data to gain new insights.

Contestants must submit an entry by November 19, 2018. Cash prizes will be awarded for the best visualizations. More information is available on the SFEI website.

Help us get the word out by forwarding the attached flyer to your contacts and/or posting the attached jpeg on your website with this link.

<https://www.sfei.org/events/rmp-data-challenge>

Thank you.

Philip Trowbridge, Manager

Regional Monitoring Program for Water Quality in San Francisco Bay
